

Westmoreland told newsmen, "We can live with" short bombing halts, but "I'm not very happy about the prospect."

President Nguyen Van Thieu of South Vietnam has said he wants a bombing halt during the year-end holiday period.

In a New York speech Vice President Hubert H. Humphrey said the cost of the Vietnam war is no reason to cut domestic spending, particularly programs aimed at solving big-city racial problems.

As Humphrey spoke, about 25 antiwar demonstrators picketed quietly outside the hotel. Earlier five of the demonstrators dashed toward the banquet room before Humphrey arrived, shouting, "Humphrey, murderer!" Police ejected them.

In a report Wednesday to Congress on U.S. participation in the United Nations during 1966, Johnson said the United States has continued to push for an honorable settlement of the war.

"Those efforts have never abated," said Johnson, adding the United States retains hope "the United Nations will make its contribution toward such a settlement."

NO CALL  
(From Page 1)next July 1.  
But Westmoreland is said to feel that the extra troops should be deployed faster to allow him to keep maximum military pressure on the enemy, in the belief both the North Vietnamese and Viet Cong are reeling from recent defeats.

Pentagon officials are said to be in agreement with Westmoreland and that White House approval also is reported in advance of his meeting with Johnson.

Although a speedup in the authorized troop buildup is likely, sources said, they emphasized Westmoreland is not expected to seek additional troops above the 525,000-man level.

Both Bunker and Westmoreland spoke out against any prolonged pause in U.S. bombing of North Vietnam.

Bunker told newsmen, after meeting privately for two hours with a House Foreign Affairs subcommittee, that he felt it would be "very unfortunate" to suspend the bombing for very long. In line with a long standing administration position, he said a longer pause might be

made to determine the proper addresses.

"As the Christmas mail volume going overseas is expected to increase up to 30 percent or over 4 million pounds above last year, every precaution should be taken by friends and relatives of servicemen to address their letters and packages properly to assure rapid delivery to its destination," Postmaster Brannan said.

There are four essential elements to an overseas military address. They are:

1. The serviceman's identity—grade, full name, and service number.
2. His military unit—complete.
3. Gateway post office—New York, San Francisco or Seattle.
4. APO or FPO—a 5 digit number.

When any of these elements are missing, the letter or package will be delayed in delivery.

Urges Correct  
Address of  
Servicemen

Postmaster A. D. Brannan today urges the citizens of Hempstead County to be sure to use the correct address on their letters and packages going to servicemen overseas to avoid serious delays in delivery.

Postmaster Brannan reported that millions of letters and packages going overseas have been delayed because they were insufficiently addressed. He said that one of the biggest problems has been the failure of persons to include the very important 5 digit APO or FPO number in the military address. Mail not containing this number is incorrectly addressed.

He said that last year more than 9 million pieces of mail were delayed in delivery. Of this number, 3 1/2 million pieces failed to include the complete 5 digit APO or FPO number in the address. This improperly addressed mail had to be sent to a military locator directory where time-consuming searches were

Gestapo Chief  
May Be Held  
in Panama

By LUIS NOLI

PANAMA (AP) — Panamanian and West German police are investigating a graying, shabby peddler arrested on suspicion that he is Heinrich Mueller, Hitler's last Gestapo chief and Adolf Eichmann's boss.

The mystery man claimed he was a 61-year-old U.S. citizen, Francis Willard Keith, born in Webb City, Mo., but Panamanian authorities said his German-accented English was barely intelligible.

His fingerprints were flown to West Berlin for comparison with those of Mueller, who was reported alive in Hitler's bunker just before the fall of the Nazis in 1945.

The chief of Panama's Department of Investigations, Hector Valdes, said there was a strong resemblance between the man arrested Tuesday and photographs of Mueller but his department had failed to connect the two.

"I don't believe he is the man," Valdes told a reporter.

West Germany's Justice Ministry said the suspect was identified as Mueller by a Belgian informant who also said a Belgian graphologist had confirmed the suspect's handwriting was that of the former lieutenant general in Heinrich Himmler's SS Elite Guard.

Newsmen who viewed the suspect at a news conference Wednesday night saw a man apparently in his 60s with several days growth of stubble. He sat silent in the glare of television lights, wearing a light gray coat and faded brown trousers. When a reporter handed him a microphone, he gave it to Valdes who did not permit questions.

Mueller was believed dead by many Germans, but last week the West German Central Office for Nazi Crimes said it had uncovered a new "hot trail" to him. It came from Simon Wiesenthal, the Viennese Nazi hunter who directed Israeli agents to Eichmann in Argentina.

Valdes said he personally arrested the man in a Panama City restaurant and described him as a peddler of ties, honey and liquor who had lived in Panama for eight or ten years. Valdes called him "half crazy."

In London, Dr. Gerhart Riegner, secretary-general of the World Jewish Congress, said Mueller was a leading participant in the 1942 Wannsee conference which planned the annihilation of Europe's Jews.

Two employees of the Israeli Ministry of Labor were arrested on Nov. 2 in the Munich home of Mueller's wife. Their lawyer said they were seeking evidence that Mueller was still alive and were acting as private individuals, not on government orders.

GP Strike Talks  
to Be Reopened

CROSSETT, Ark. (AP) — Spokesmen for the Georgia-Pacific Corp. and Local 5-475 of the International Woodworkers Union said Wednesday that a meeting would be held here next Tuesday to reopen negotiations on ending the union's 16-day-old strike.

Both parties indicated that they were hopeful of a settlement.

A. W. Millie of the federal Mediation and Conciliation Service is to sit in on the meeting.

More than 750 employees of G-P's two plywood plants here went on strike in a demand for a "roving picket" clause in a new contract.

Texarkana on  
Model Cities  
Program

WASHINGTON (AP) — The administration announced today the names of cities chosen to take part in its model cities program.

The list includes 65 projects in 63 cities. The cities are in 33 states and the District of Columbia and Puerto Rico.

The cities selected, from 193 which had applied, will share in \$11 million in planning funds.

If they successfully complete the projected one-year planning process, they will share in \$300 million which Congress recently voted for supplemental grants and extra urban renewal funds earmarked for the program.

The action will focus on actual neighborhood program in each participating city. It will be the first use of all known means—public and private—to make a blighted section of each city a pleasant place to live.

The model cities program is designed to help cities rehabilitate slum areas, build urban renewal projects and finance future planning.

Under it, cities will receive special supplemental federal aid in carrying out plans for social, physical and economic improvement in specified neighborhoods. These programs will involve federal, state and local activities as well as private efforts.

The list by states:  
Alabama—Huntsville.  
Arkansas—Texarkana.

Six Fined in  
Gambling Case

LITTLE ROCK (AP) — Circuit Judge William J. Kirby fined six persons \$50 each plus costs here Wednesday after their attorney, Harry C. Robinson, entered pleas of guilty to charges of keeping a gaming device.

The device was a pinball machine used for gambling purposes.

Those fined were Jay W. Reed, 54; Eugene J. Benoit, 26; Laura Mae Bowden, 29; Bob Bruce Villines; Joyce Ione Kuykendall, 42; and Kenneth D. Kirkpatrick, 41, all of Little Rock.

LITTLE ROCK (AP) — Lt. Gov. Maurice Britt sent a memo to directors of state agencies and departments Wednesday urging them to ask their employees to provide reading material, razorblades, toothpaste and other items for U.S. troops in South Vietnam. "There are so many state employees that just one used paperback book or other article from each person would amount to a sizeable show of support for these men," Britt said.

Pleasant  
Weather  
for StateBy THE ASSOCIATED PRESS  
More pleasant weather is in the forecast for Arkansas, but an inflow of warm Gulf air gives a chance of showers Friday afternoon or evening.

Temperatures are expected to continue to rise slowly. Temperatures warmed up Wednesday to highs of 74 at Ozark, 72 at Fort Smith and 71 at Texarkana, while Blytheville only reached a high of 52. Overnight lows ranged from 29 at Batesville to 42 at Texarkana. There was no rainfall reported in the state for the 24-hour period ending at 7 a.m. today.

The word caviar, meaning the roe of the sturgeon, does not appear in the Russian language, according to Encyclopaedia Britannica.

## Bob Thomas at the Movies

By BOB THOMAS

AP Movie-Television Writer HOLLYWOOD (AP) — Ted Hartley is going about a film career in the same way he won a post as naval aide at the White House with positive thinking.

"There was absolutely no logic to my being appointed aide to President Eisenhower in 1957," he recalls.

"There were other Navy officers with more seniority and better qualifications. But I was fascinated with the power structure of Washington and I wanted to observe it from the inside, so I put in my application. A couple of weeks later I was told to report to the White House."

Hartley was even less qualified to become an actor; his only previous experience in dra-

matics had been playing a female role in an Annapolis production. Yet his film career has been progressing, and he has his best role so far in the Cinema epic, "Joe Station Zebra."

At age 34, the ruggedly handsome Hartley is thinking of writing his memoirs. Born in Omaha, Neb., and reared in Des Moines, Iowa, he has packed a lot of living into his lifetime.

Among his experiences: Becoming the nation's youngest pilot at 13; forming a fast friendship with Lady Astor during a cruise to England; hobnobbing with the Kennedys and other Washington society; serving as naval aide at the U.S. Embassy in Moscow; breaking his back when his Cougar jet crashed on the carrier Midway off Formosa.

He managed to survive the injury, but it was enough to get him discharged from the Navy. For lack of anything else to do,

he bought a travel agency in Corpus Christi, Tex., where he was discharged.

"The business didn't prosper, but at least I got some free trips out of it," said Hartley. He sold his travel agency to become an acquisitions man for the Gulf & Western.

Hartley did so well that he was lured away by another acquisition-minded firm and sent to its Nevada headquarters. But the business life paled on him, and he left the \$30,000 post for the nebulous career of a writer in Hollywood.

"Then the idea of acting presented itself," he related. "I first became interested when Rita Gam took me to sessions of the Actor's Studio in New York. I was offered a one-day role as a minister in 'Peyton Place,' and I decided to take a flier. I must have done all right, because I stayed 3 1/2 months."

## Celtics Have Taken Over First Place

By THE ASSOCIATED PRESS  
The Boston Celtics have taken over first place in the National Basketball Association's Eastern Division, but Player-Coach Bill Russell had a problem. He didn't know where his car was.

Following the Celtics' 113-110 victory over San Francisco in snow-clogged Boston Wednesday night, Russell stood in his club's dressing room and said: "The first thing I want to do is find my car. I don't know where it is."

But during most of the game, the second of a doubleheader at Boston Garden, Russell knew where his car was. He was in it, and it was in a mammoth traffic snarl caused by the storm.

He finally abandoned it, caught a ride with a policeman and arrived at the Garden with just a few minutes remaining in the game. He didn't bother changing into his uniform.

In Russell's absence, General Manager Red Auerbach, who guided the Celtics to eight straight NBA titles and earned 1,037 victories before turning the coaching job over to the star center last season, stepped into the breach.

Detroit beat Philadelphia 123-120, San Diego topped New York 122-108 in the first game at Boston before only 2,645 fans and Los Angeles turned back Chicago 124-115.

In the American Basketball Association, Anaheim beat Dallas 116-105, New Jersey edged New Orleans 123-114 in overtime, and Indiana downed Oakland 119-110.

Bailey Howell's 27 points led Boston, which boosted its record to 11-2 compared to Philadelphia's 11-3.

Detroit fell behind by 18 points in the second quarter but then, led by the shooting of Dave Bing, roared back to overtake Philadelphia and end a 16-game losing streak against the 76ers.

Bing poured through 40 points, including 16 in the final period. Dave Gambee scored 15 points in the final quarter when San Diego outscored New York 41-24 as the new Rockets picked up their third victory in 17 games.

Gambee finished with 24, high for the game. Dick Barnett was high for the Knickerbockers with 17.

Jerry West made his first start of the season for Los Angeles after being sidelined with a leg injury and helped spark the Lakers to their victory over Chicago. West scored 17 points and contributed eight assists.

Flynn Robinson of the Bulls topped the scorers with 34 points, a career high. Archie Clark led the Lakers, who had seven players in double figures, with 24.

## Blevins Takes Three From Laneburg

Blevins won three basketball games last Tuesday night at Blevins from Laneburg. The Blevins Sr. Boys won 77-34. Billy Smith, with 16 points, was high for Blevins. Ricky Purdie scored 13 for Laneburg.

Blevins won the Sr. Girls game 56-26. Lou Turnage scored 20 points and Dot Steed hit 10 for Blevins. J. Campbell was high with 20 points for Laneburg.

The Jr. Boys' final score was Blevins 42, Laneburg 33. Tommy Webb was high for Blevins with 18. Quiteriz scored 24 for Laneburg.

## SOLUNAR TABLES

By RICHARD ALDEN KNIGHT

The schedule of Solunar Periods, as printed below, has been taken from Richard Alden Knight's "SOLUNAR TABLES." Play your days so that you will be fishing in good territory or hunting in good cover during these times, if you wish to find the best sport that each day has to offer.

The Major Periods are shown in boldface type. These begin at the times shown and last for an hour and a half or two hours thereafter. The Minor Periods, shown in regular type, are of somewhat shorter duration.

Use Central Standard Time.

Date	Day	Minor	MAJOR	Minor	MAJOR

## Malvern Picked to Take Title

By HARRY KING  
Associated Press Writer  
Fort Smith Northside, the state's top-ranked team, has been under the gun for the past 11 weeks and the Grizzlies will be in that position for the 12th and final time Friday night when they play Fort Smith Southside.

Northside has gained the No. 1 spot by going 11-0 through what is generally regarded as the most difficult Class AAA schedule in the state.

Southside is 5-4 and can be counted on to deliver a top effort against the Grizzlies.

Northside Coach Bill Stanoli doesn't figure to let the Rebels ruin his perfect season.

Northside 20, Southside 7.

Malvern and Camden Fairview play Friday night at Malvern and the Region 4AA title is on the line. Malvern has one tie in conference play. Fairview has one loss. Malvern, Pine Bluff and El Dorado tied for the No. 8 spot in the state rankings and the Leopards will attempt to prove they belong among the elite.

Malvern 13, Camden Fairview 7.

Jacksonville can capture the Class AAA Eastern Division championship with a victory over Blytheville Friday night. This one is at Blytheville but the Red Devils are 2-0 in the four-team conference.

Jacksonville 19, Blytheville 13.

Last week's percentage: 736.

Other AAA and AA forecasts around the state:

Little Rock Hall 21, Little Rock McClellan 6

El Dorado 13, Hot Springs 6

## Yankees Still Top Draw on the Road

BOSTON (AP) — Win or lose, the New York Yankees still are the top drawing card on the road in the American League.

Despite a ninth-place finish this season, the Yankees drew 1,304,783 fans away from home, helping the league to a record attendance of 11,336,923.

A league spokesman said Wednesday that according to records available the Yankees topped the circuit in road attendance for the 18th straight year.

Six other clubs topped the one million mark, also setting a league mark for the most teams surpassing that mark in road attendance.

Minnesota drew 1,325,806 to rank No. 2. The Chicago White Sox were a better drawing card away from home, attracting 1,277,404 fans on the road compared with just 985,364 at home.

The Boston Red Sox showed the biggest gain in road attendance as they leaped from a ninth-place finish in 1966 to the pennant. The Red Sox drew 1,171,688 fans on the road, 383,153 more than last year.

Baltimore's 1966 champions attracted 1,145,275 fans on the road, and Detroit 1,139,121. The Washington Senators passed the million mark on the road for the first time, helping to attract 1,077,131.

Other road figures were Cleveland 997,695; California 971,690 and Kansas City 938,214.

In Chicago, California, Detroit, Kansas City, Minnesota and Washington all drew more fans away from home than in 1966.

scoring his 10. It happened in the second period with Kansas City leading 17-10.

Boston's Babe Parilli passed for Bob Cappadona but laid the ball into the sea's hands instead. But with a clear field in front of him, then as dropped the ball.

On the very next play, Parilli sent Art Graham towards him again. This time, Parilli grabbed the ball and tossed it a big block by Ed Lothamer spring him for his 57-yard touchdown.

## Yastrzemski Disappointed

BUFFALO, N.Y. (AP) — Yastrzemski said today he was disappointed that the Yankees brought him the American League's Most Valuable Player award was not named.

"I'm slightly disappointed," wasn't unduly so, but the thing is, I didn't want it," said the Red Sox slugger, who is speaking engagingly.

## Porks Polish Attack for Mustangs

FAYETTEVILLE, Ark. (AP) — The Arkansas Razorbacks were to "polish up their attack" this afternoon in preparation for Saturday's game at Dallas against Southern Methodist University.

Coach Frank Broyles said the Porks would be out in sweat clothes for about an hour.

They practiced in sweat clothes Wednesday, foregoing the normal workout in pads because of some minor bruises on a few of the players.

Broyles called the hour-and-20-minute session "a good signal drill."

"We worked real hard on our kicking game and our goal line defense," he said.

Broyles said the team would leave here Friday morning and practice in the Cotton Bowl Friday afternoon.

## Glad He Faces Hull Only in Practice

By THE ASSOCIATED PRESS  
"I'm just glad," Glenn Hall once said, commenting on Bobby Hull's powerful shots, "that I only have to face them in practice."

But that was before the National Hockey League expanded. Now goalie Hall, a longtime Chicago teammate of Hull's, is just another target for the Golden Jet.

Hull fired his 15th goal of the season Wednesday night helping the Hawks beat St. Louis and Hall for the second time this week, 4-1.

Elsewhere in the NHL Wednesday, Mike Walton's three-goal hat trick powered Toronto to a 4-2 victory over Boston and moved the Maple Leafs into undisputed possession of first place in the East Division. Pittsburgh blanked Philadelphia 5-0, Montreal dropped Minnesota 5-1 and Oakland whipped Los Angeles 4-1.

Hall yielded a first-period goal to Stan Mikita and then held off the Hawks until midway through the third period when Hull blazed a 20-footer past him.

Bobby's younger brother, Dennis, and Eric Nesterenko then added wrapup goals for the Hawks.

Walton, playing in place of the injured Dave Keon, scored two goals in the first period, one of them just 36 seconds after leaving the penalty box, and completed his hat trick in the middle session.

The three goals gave the 22-year-old center seven for the season in 15 games matching his total for 31 games with Toronto last year.

Montreal ended a five-game winless streak as Dick Duff and Henri Richard did the heavy work against Minnesota.

Duff had a goal and three assists and Richard scored and set up two others for the Canadiens. Yvan Cournoyer, who notched his eighth goal, Ralph Backstrom and Ted Harris were Montreal's other scorers. Wayne Connelly hit for the North Stars.

Hank Bassen, playing his first game in 2 1/2 weeks, blanked Philadelphia, ending a four-game flyer winning streak. Bassen kicked out 27 shots and Billy Dea, Al McDonald, Ben Dillabough, Keith McCreary and Art Storteen scored Philadelphia's goals.

Oakland's victory over Los Angeles broke a 17-game winless skid. During the 17-game span the Seals had 10 tie games with just three ties.

The Kings took a 1-0 lead early in the first period, but after being tied 1-1 by Terry Gray, but after that was all Oakland, Larry Rupp, George Swartzburg, Chuck Burns and Art Farkas scored the Seals' goals.

## Pitts Is Out for Season for Green Bay

NEW YORK (AP) — Elmer Pitt, Green Bay Packers, is out for the season, having been placed on the "injured list" after a 14-day layoff from the National Football League.

If the Packers don't try to reactivate Pitt, that is the end of the season, including preseason play, Pitts could be claimed by any other NFL club on non-recallable status.

However, Elmer is still in the hospital, fully covered up with the tubes, and not likely to be out of a hospital anytime.

Pitt suffered a fractured tibia in a 1967 game against the Baltimore Colts. The injury has been taken by many Packers as the best reason for the team's lack of success in the past few years.

He had been out for four months last year against Cleveland.

## Hope Girls Remember Bradley

By RALPH ROUNTON  
Star Sports Writer  
Today is the climax of all the dreams for the 1967-68 Hope High School Lady Cats; the pre-season practicing is over, and it's time for game number one.

Lady Cat Coach Charlotte Gibson, probably along with the team, is "scared to death" of that opponent in Jones Field House tonight, the Bradley Beantettes. The Lady Cats will also be remembering last year, when Bradley's state Class B champions felled Hope twice by margins of 63-32 and 61-28.

Really, the Lady Cats should be improved over last year, but tonight's winner will most likely be the team which has advanced the most in preparing for this game. This writer will lay you odds that when the two clubs collide during the stretch in late January it will be pride and determination at its best.

Through the past several years Bradley has built up a dynasty such as could be compared to the Boston Celtics domination of the NBA. It is presently at its height, with a growing winning string of around 65 games on the line with each opponent.

As for the Lady Cats, they have so much depth that coach Charlotte Gibson won't decide who will start until she informs the public address announcer before the lineup is introduced tonight. Most action at forwards will be seen by Carol Anthony, Kathryn Coleman, and Gail Hartshorn, but Jo McKemie leads another group of dedicated underclassmen who can pick up the slack quickly in case a starter is having a bad night from the field.

Against Bradley, however, the guards will be a very important factor, as our fine ones try to hold down the opponents' 65-point per game offense. Leaders in the backcourt will be hard to distinguish, there are so many. Kay Coleman, Nellie Churchwell, Donna Byers, and Jenny Calliott were to be the most relied upon, but in the warmup game Monday against Prescott guard Vickie Reeves "looked as good as any," according to the coach. Now, try to pick a starting lineup.

The senior girls game will be preceded by a junior girls match between the Kitty Cats and Bradley, and the opening tip-off has been reset for 7:00 p.m. at Jones Field House Come out early and support these fine local teams.

## Jockey Could Be Factor in Garden Stakes

By RALPH BERNSTEIN  
Associated Press Sports Writer  
CHERRY HILL, N.J. (AP) — How much does a jockey mean to a horse? Maybe the rich Garden State Stakes Saturday will prove something in this vein when TV Commercial and Manny Yeaza team in a bid for a possible \$135,321 first money.

Everett Clay, who has been a press agent for jockeys and horses the last 23 years, described the combination as fitting. "One a rebel, the other named in rebellion."

Clay meant the description as complimentary, noting that Yeaza has been set down for rough riding more than any jockey in modern racing. He described the jockey as a product of a rigidly disciplined early childhood and his racing tactics rebellion against such rule and authority.

As for the colt being named in rebellion, owner Millard Waldheim took out his feeling about certain television commercials, especially those on bad breath. "I get awfully annoyed at them," says the owner of the Bonanza Farm. "I decided to name a horse in protest."

Since T.V. Commercial's sire was T.V. Ark, the name was almost a natural for the colt.

What brings up the value of a rider to a horse is the fact that Yeaza rode T.V. Commercial in the Breeders' Futurity at Keeneland Oct. 21, and won by 1 1/2 lengths over Family Fun, one of the probable starters at Garden State Park Saturday.

A few weeks later, T.V. Commercial ran in the Marlboro Futurity and was beaten three lengths by Vitriolic, pretender to the 2-year-old championship. Yeaza was not aboard, sitting out one of those contests as he is so prone to picking up.

Trainer Tony Basile and Waldheim feel that with Yeaza in the saddle for the Garden State, T.V. Commercial will score handsily and stake a claim to the juvenile title.

Vitriolic is sidelined with an injury, but most of the other standard colts in training will shoot for the big money in the Garden State, which with 14 expected starters will gross \$20,175, 25% second money of \$5,145, and third place dough of \$3,275 aren't exactly chicken feed.

Other probable starters and their riders in the 1 1/4 mile race around two turns for 2-year-olds are Sublet, Pay Brown, Irish Chief, Bobby Lee, Bugged, Eddie Belmonte, Family Fun, Howard Grant, Broad Badger, Walter Blum, State Bull, Bill Downing, Roaming, Isaac Valenzuela, Frank's Hat, Hedley Woodhouse, Adolphus, Jorge Valesquez, Fairway Prince, Lester Figgot, Cliff Card, Johnny Bate, and Ray, a Texas, Bill Howard. A rider for Irish Chief has yet to be named since Taffy Flanagan, who was to have been aboard, is serving a suspension.

## Many Think Army Shouldn't Be in Bowl

By BEN THOMAS  
Associated Press Sports Writer  
NEW ORLEANS (AP) — The Sugar Bowl has been quietly informed that "powerful people in high places" don't think Army's football team should play in a postseason game because of the Vietnam war.

This new development changes field situation for the Sugar Bowl once again with North Carolina State, Penn State, Louisiana State, Auburn, Mississippi, Miami, Fla., and Wyoming all somewhere in the picture.

"As of this moment, I would say we would probably have either North Carolina State or Penn State vs. either Auburn or Miami," said one Sugar Bowl official privately. "But a great deal depends on the outcome of this Saturday's game."

He quickly added: "The situation could change again within the next hour or two. After all, it's been changing like a newborn baby's diapers all week."

Army's football players were informed Wednesday that there would be no bowl game, the Sugar Bowl has learned.

It was Pop F. Edwards, Helbert, Idaho, the ranking majority member of the House Armed Services Committee, who is to change some funds in Washington quickly, there will be an official announcement from West Point, N.Y., sometime today about Army's no bowl policy this year.

## Only Two Left Who Do All the Kicking

By JACK HAND  
Associated Press Sports Writer  
NEW YORK (AP) — The old style all purpose kicker who handled the punting, field goal work and kickoffs has all but disappeared from the scene in pro football.

Sam Baker of the Philadelphia Eagles and Danny Villanueva of the Dallas Cowboys are the only men who do the triple job. In fact, they are the only players who handle both the punting and field goal work regularly.

Villanueva lost his job during the training season while he was recuperating from an operation but he now has taken over again. Harold Deters, the rookie field goal specialist, was placed on the taxi squad. Baker normally shares some of the punting with King Hill but the No. 2 quarterback was injured early.

Don Chandler may be back in double duty harness again now that Donny Anderson has taken over at running back for the injured Elijah Pitts, out for the season. Chandler punted once in the Baltimore game but Anderson handled whatever punting was necessary last week in the rout of Cleveland.

Five rookie punters are doing the job in the National Football League with Jim Elliott at Pittsburgh, Chuck Latourette at St. Louis, Steve Spurrier at San Francisco, last year's Heisman winner, Tom McNeill at New Orleans and Lem Barney at Detroit since Pat Studstill has been out. The American Football League's rookie punters are Larry Seiple of Miami and Terry Swanson of Boston.

Despite the problems the field goal men have been having this season most of them are veterans. The Chicago Bears' Mac Percival and the New Orleans Saints' Charley Burke are the new boys in the NFL. Rookie place kickers in the AFL include Jan Stenerud of Kansas City and Bob Humphreys of Denver. Miami's latest is Booth Lesteg who has been bouncing from club to club while Washington picked up Gene Mingo, an ex-AFL kicker, to fill in when Charlie Gogolak's injury proved serious.

Chandler seems to be helped by the lighter work load. Last year he made 12 of 28 field goals, missed two extra points and averaged 49.9 yards punting. Believed of the punting, he has made 11 of 17 field goals and hasn't missed on 28 conversions.

## Cincinnati Names Smith a Coach

CINCINNATI (AP) — Ed Smith, who twice made the National League all-star team as a catcher, was named a coach for the Cincinnati Reds today.

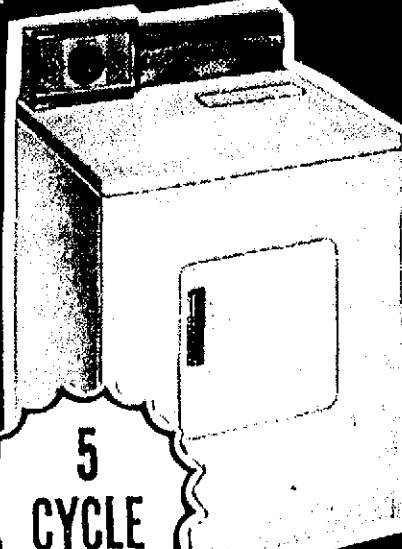

Smith, 36, has been a coach for the St. Louis Cardinals and a manager in the Cardinals' farm system since his retirement in 1961 because of a heart condition. He played for the Cardinals from 1936 to 1960 and was named to the 1957 and 1959 All-Star teams.

A team spokesman said that Smith, a native of Baring, Ark., who now lives in Madison, Mo., had the heart condition.

# The Last Two Tackles Were the Very Best

By **IRA MILLER**  
Associated Press Sports Writer  
UNIVERSITY PARK, Pa.  
(AP) — Linebacker Dennis Onkotz has made 102 tackles for Penn State this season but the first 100 meant little compared to the last two.

They were the ones which first preserved and then completed Penn State's 13-8 victory over previously-undefeated North Carolina State last Saturday—a victory achieved largely because earlier in the game Onkotz returned an intercepted pass 67 yards for a touchdown. Onkotz made 22 tackles in that game—12 of them unassisted—and also helped the Mitten Lions recover a Wolfpack fumble, achievements which earned him The Associated Press' nod as college football Lineman of the Week.

A sophomore—like five of Penn State's other defensive regulars—Onkotz has been making big plays all year and when North Carolina State, trailing 13-6, lined up for a fourth down play at the Penn State one-yard line with 33 seconds to go, he knew just what to do.

"They had run the play before and they liked to dive over the pile," Onkotz said. "We were ready for it and I anticipated where he'd go."

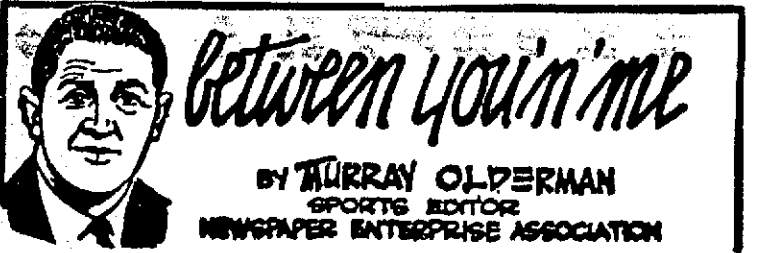

Tackle Mike McBeth and linebacker Jim Kates grabbed Settle Dockery low and when he tried to dive into the end zone, Onkotz rushed over to shove him back.

Penn State ran three quarterback sneaks and then gave up an intentional safety to kick out of danger. The Wolfpack had time for one more play but it came to a halt when Onkotz wrapped up Tony Barchuk in the open field at the Lions' 35.

Saturday's interception was the fourth for Onkotz this season and the second he ran back for a touchdown.

## The Player's the Thing

NEW YORK—(NEA)—In a recent issue of Life, a disconcerting reference was made to a couple of "veteran insiders" of professional football. One of them was Tex Maule, the oracle of Sports Illustrated. Modesty inhibits identification of the other.

This label of veteran insider creates immediate problems. People expect you to know what's going on.

So you're sitting in the press box—well-heated, of course—enjoying the sight of Johnny Unitas throwing a touchdown pass to Willie Richardson and a guy yells over, "What'd they catch 'em in, a rotating zone?"

The impulse is to answer the way coach Don Shula would: "I'll have to wait until I see the films."

Listen, football's complex enough without trying to figure the patterns of 22 men involved in intricate maneuvers like fold blocks, line slants, posts and drops. When Frank Gifford retired from active play, he scouted opponents one year for the New York Giants and found out it was the toughest way to watch a football game.

"You're supposed to know what's going to happen," he said, "by checking the guards, whether they're pulling or setting up to block. Hell, I was watching the quarterback—like everybody else—to see where the ball went."

"And this business of sitting in the end zone to get a better idea of the line splits and the pass patterns is a lot of baloney. The only reason people sit in the end zones is because they can't get seats on the 50-yard line—where you can still see the game best."

Gifford's comments are apropos because he's out with a tome that is the latest prose to watch football by, replete with diagrams and all sorts of inside revelations. At the same time, that other "veteran insider," Tex Maule, has just produced a document called "The Players" which must be one of the most unique ever published on pro football.

Among the 238 pages (coated stock) of pictures (32 in color, 100 in black and white) and Maule expertise, there is not a single diagram of xs and os intersected by arrows and dotted lines. For that alone, it probably belongs on the living room coffee table—if you can afford the \$12.95 at your nearest book store.

Maule stated his thesis simply at the end of the first chapter: "Professional football is built upon the players." And then he broke them down by categories—quarterbacks, running backs, receivers, offensive linemen, defensive linemen, linebackers, defensive backs and kickers—to show through personality and performance how a team is built from a conglomeration of incompatible men.

The intrigue of pro football is in both the strength and frailty of the performers. You could appreciate Vince Costello, the 35-year-old middle linebacker of the collapsible Giant defense, if you could hear him gush enthusiastically at a Monday luncheon run by Fran Tarkenton of the combustible Giant offense. Costello, a refugee from the Browns, has lasted more than a dozen years because of his effervescence.

Still, he was impelled to explain that a touchdown was scored against his unit "because we were in a weak side zone and I didn't give 'em underneath protection." And 200 guys in business suits who had just been poring over invoices were expected to understand.

It was like Don Shula explaining a touchdown was scored against the Colts by Green Bay "because the corner back was sucked inside and forgot to roll back to double with the corner back on the man coming out of the backfield."

Football was a lot simpler when all teams lined up in a 7-4 defense (called 7 diamond) and everything was predictable.

It was also much duller.

## Not So Long But Shot Was Satisfying

By THE ASSOCIATED PRESS  
It wasn't as long as Jerry Harkness' record 92-foot heave Monday night, but the New Jersey Americans found Mel Nowell's 30-foot jump shot every bit as satisfying.

Nowell's jumper, which counted for three points, came with six seconds left and gave the Americans a 108-108 tie in regulation time with the New Orleans Buccaneers in their American Basketball Association game at Teaneck, N.J., Wednesday night. The Americans went on to whip the Western Division leaders 123-114 in overtime.

Harkness' record shot came as the final buzzer sounded in Dallas and gave the Indiana Pacers a one-point victory over the Chippewas. The Pacers, the Eastern Division leaders, made it two straight by whipping the Oakland Oaks Wednesday at Indianapolis 119-110.

Dallas, playing at home, lost to the Anaheim Amigos 116-105 in the other ABA game scheduled Wednesday.

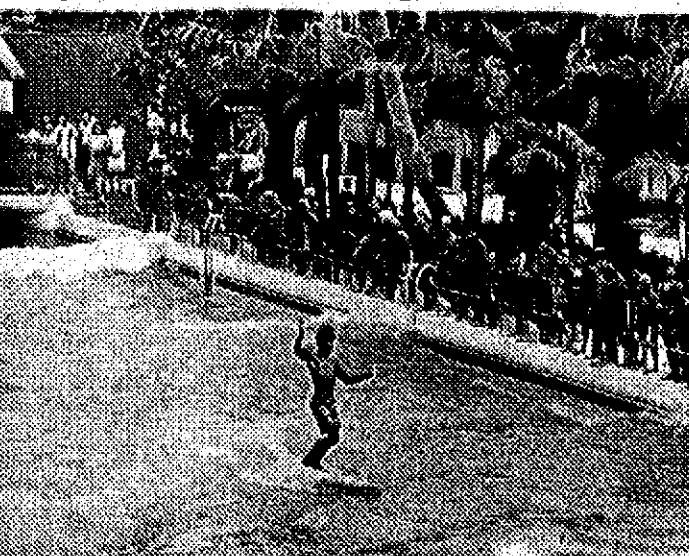

Nowell's heave climaxed a last quarter rally by the Americans in which they erased a 14-point deficit. A layup by John Austin and two free throws by Tony Jackson broke a 112-112 tie in the extra period and put the Americans ahead for good.

Lavern Tart, unable to play at Pittsburgh Tuesday because of a Pennsylvania common pleas court injunction, was back in action for Oakland Wednesday, but his 25 points wasn't enough to pull the Oaks through against Indiana.

A last-quarter rally, led by Les Selva, gave Anaheim its victory over Dallas. Selva, the league leader in three-point goals, hit three of them in the winning rally and finished high for the Amigos with 24 points. John Beasley topped Dallas with 26.

## Says Criticism to Johnson Is Treason

WASHINGTON (AP) — Sen. George D. Aiken says President Johnson and administration officials imply Vietnam war policy criticism borders on treason. The Vermont Republican calls it "hitting below the belt."

Aiken, a member of the Senate Foreign Relations Committee, took issue with a Monday statement by Ellsworth Bunker, U.S. Ambassador to South Vietnam, that domestic dissent acts to "encourage the North Vietnamese to hold on."

A sharp critic of Johnson's escalation of the U.S. war effort, Aiken said in an interview he detects a pattern in weekend speeches by the President, a New York talk Monday by Vice President Hubert H. Humphrey and in Bunker's remarks, a pattern of blaming critics for what he called lack of success in Southeast Asia.

"Congress has given the President everything he has asked for to carry on the war in Vietnam," Aiken said. "If the results have not been successful, it would appear to be the judgment of the administration that is at fault."

"To imply that those who question the judgment of the President may not be wholly loyal to their country would seem to me to be hitting below the belt."

Humphrey said the greatest need at this point in the war is "support by the American people" which "can give a clear, unmistakable signal to our adversary and thereby shorten the war."

"I can tell him (Johnson) how to get unity," Aiken said. "Just let somebody drop bombs on Silver Spring, Md., and Falls Church, Va., and he will get unity. The American people then would feel just about as I imagine the people of Hanoi and Hanoi feel."

Silver Spring and Falls Church are Washington suburbs.

That viewpoint also was expressed by journalist David Schoenbrun, who said his recent visit to North Vietnam convinced him U.S. bombing of the North never will lead to peace talks.

"I've been all through North

Vietnam and seen the destruction," Schoenbrun told newsmen in Detroit. "Believe me, those people have very little left to lose. They are willing to fight to the end."

Schoenbrun, a longtime Columbia Broadcasting System newsmen who now teaches at Columbia University, said he feels North Vietnam would be willing to begin talks within four weeks after an unconditional halt to U.S. bombing.

Bunker reported to the President on the progress of the war. He's scheduled to brief the Sen-

ate Foreign Relations Committee Thursday on developments in South Vietnam.

The committee is expected to clear the same day a resolution to put the Senate on record urging Johnson to take the war issue to the United Nations for a decision.

Bunker told newsmen after the White House conference he reported to Johnson "we are making steady progress in Vietnam" and "there is every sign the progress will accelerate."

Humphrey challenged critics to come up with an alternative

course in Vietnam. He said "if you can find it, we will use it."

That's a problem Republicans know their 1968 presidential nominee will face and Senate GOP Leader Everett M. Dirksen said he thinks the Republican candidate will have to follow the Johnson administration's fundamental policies, only more so.

"He will have to go further, though," Dirksen said. "He will have to do more than the President is doing," like advocating an expansion of the number of targets for bombing without ex-

tending the war itself.

In Miami Beach, persistent war policy critic Sen. Wayne Morse, D-Ore., called the Vietnam struggle "one of history's most god-awful bloodbaths" and said he'd "rather walk out of the Senate than support Johnson's war in Vietnam." He spoke at a news conference.

## Integration of Training Schools Asked

LITTLE ROCK (AP) — U.S. District Judge Oren Harris was asked Wednesday to require the boards of the two state training schools for boys to file desegregation plans within 30 days.

Mrs. Nona Mae George of Gould said in a motion filed by her attorney, John W. Walker of Little Rock, that the plans should be filed to comply with a ruling by the Eighth U.S. Circuit Court of Appeals at St. Louis.

The appeals court held May 23 that Arkansas laws requiring separate reformatories for Negroes and whites were unconstitutional.

Mrs. George instituted the suit that brought that decision. The U.S. Supreme Court refused to review it Oct. 10, and the case was sent back to District Court here Oct. 23.

The state operates a training school for Negro boys at Wrightsville and one for white boys at Pine Bluff. It also operates a training school for Negroes girls at Fargo and one for white girls at Alexander, but the girls' schools weren't mentioned in Mrs. George's motion.

Any desegregation plans submitted by the boards of the schools presumably would need approval by the General Assembly.

The Legislative Council recommended Oct. 20 that all the training schools be placed under one board and stop the practice of racial segregation.

### TV Personal Perennial Probe of Kennedy Death

Half a dozen years ago Roy Anderson told me an old Springfield story — about a boy explaining to his teacher that he was late getting to school because he was busy picking chickens — and I used it with success in a series of speeches in Arkansas, Louisiana, and Texas.

It was effective because it was new to this generation. Apparently I had the joke all to myself. Then I spoke at Tyler, Texas, which is getting along in the direction of metropolitan Dallas. It's around the metropolitan areas that the syndicated writers and airwave stars usually pick up new material from the countryside.

I found this out, for a month or so after that Tyler speech someone told me this chicken-picking story popped up on national television.

And I heard it myself last Tuesday night, Jimmie Dean told it on a guest appearance with Joey Bishop on ABC-TV. It was a kindly country joke and Dean told it well — he should have, being a country boy from Plainview, Texas.

Whether the continuing debate over the circumstances of the assassination of President John F. Kennedy serves a genuinely useful purpose or represents mere attempts to get publicity for obscure "investigators" is something I don't know any more about than you do.

But the debate continues. Distinct in New Orleans a local district attorney named Garrison has been running his own investigation for months, pushing it so vigorously that critics now charge he is neglecting his routine prosecution work in New Orleans.

And this morning's wire report tells of still another "investigator" who has gotten space for himself in the financially ailing Saturday Evening Post. Dr. Josiah Thompson, professor of philosophy at Pennsylvania's Haverford College, comes up with the story that he has quit his college job to investigate the Kennedy death. He says there were multiple shots and more than just the one supposed assassin Lee Harvey Oswald.

It is the contention of all these dissidents that the findings of the FBI and Warren Commission are wrong.

Maybe so — but I wouldn't bet on it. The FBI and the Warren Commission were charged with finding the truth about the assassination of a President. It is a certainty that their report couldn't be "fixed" — and extremely doubtful that they missed any important fact.

## Brooks Won't Take Oath of Allegiance

NASHVILLE, Tenn. (AP) — Fred Brooks, 20, controversial Black Power Negro, refused today to take the oath of allegiance signifying his induction into the Army. His case was turned over to state and federal officials for action.

Refusal to be drafted, under federal law, is punishable on conviction by up to five years in federal prison. The U.S. district attorney's office, state and local draft officials were notified of Brooks' action, but a state Selective Service spokesman said it will be "several days before we can process the case."

Brooks, chairman of the Nashville Chapter of the Student Nonviolent Coordinating Committee, reported as ordered to his local draft board office this morning. But an Army spokesman said he refused to step forward when it came time to take the oath.

"I don't think the Army wants me, man," Brooks told a newsmen at the draft board office. "I think I'd do more harm than good."

Brooks, who directed Nashville's controversial summer Liberation School for young Negroes, had been scheduled to testify today before the Senate Investigations subcommittee regarding rioting on Nashville Negro college campuses last spring. The subcommittee, however, postponed this week's hearings a week in order to permit him to be drafted.

## Antipoverty Bill Clears the House

By JOHN BECKLER  
Associated Press Writer  
WASHINGTON (AP) — An antipoverty bill cut by \$460 million has cleared the House and both the budget-cutters and administration supporters claim a victory.

Republicans succeeded in cutting the money total well below President Johnson's request but the pared-down version—with all its controversial programs intact—then sailed through 283 to 129, the biggest margin in its three-year history.

As it passed the House Wednesday night after a long, frequently raucous session, the bill would extend the Office of Economic Opportunity's programs for one year at an authorized spending level of \$1.6 billion.

That's the amount the OEO had last year. Johnson had asked for \$2.06 billion to expand the antipoverty program this year.

The Senate has already authorized \$2.25 billion and a compromise agreement will now have to be worked out.

After three frustrating days in which they were defeated on every major attempt to cut funds and revise the program, the Republicans scored on their final thrust just before passage.

Their motion to cut back to \$1.6 billion was approved 221 to 190, with 148 Republicans and 73 Democrats, mostly from the South, supporting it. Opposing the slash were 162 Democrats and 28 Republicans.

On final passage, 186 Democrats and 97 Republicans voted for the bill and 50 Democrats and 79 Republicans against it. The entire top leadership of the Republican party either voted or was paired against the bill.

The bill's supporters shrugged off the cut in funds as a small price to pay for keeping alive a program that at one time appeared doomed.

The coalition of Republicans and Southern Democrats that rewrote major administration education and crime control bills earlier in the year had made a complete revision of the antipoverty program its main goal.

## Change in Issuance of Driver Licenses in State Explained

(Editor's Note: The 1967 General Assembly made several changes in the issuance of Arkansas driver and motor vehicle licenses. This is the first of a two-part series explaining the changes.)

By ED SHEARER  
Associated Press Writer

LITTLE ROCK (AP) — Late this month Arkansas drivers will receive by mail invalidated driver licenses as the state moves into a central issue system for the first time.

The new system will eliminate standing in line, a custom to which Arkansians have become accustomed during an annual January rush to obtain the licenses as well as new motor vehicle license plates.

The new system, spawned in the 1967 General Assembly, is a simple one since it will be conducted by computer in the state Revenue Department's data processing center.

The two-year transition period required to complete the change will likely cause some problems, but once the system is established, obtaining a renewed license will be quite easy.

"We expect to have a high rate of errors on this original mail issue," says H. W. Reinhardt, a retired Air Force lieutenant colonel who is serving as the project manager for the department.

The department will mail out new licenses Nov. 29 to all licensed drivers in 1967, using data obtained from persons when they bought their current license.

Reinhardt said this is why errors are expected, since many motorists may have moved since purchasing the license, leaving the department with a wrong address.

A driver receiving the invalidated license in the mail will have it validated by going by the local revenue office. At that time, any error on the license will be corrected and adjustments made in the computer to provide the Revenue Department with needed data to assure a smooth operation in future years.

The licenses also will no longer be issued on a calendar year basis, but will expire the last day of the month in which the driver was born, thus creating a staggered issue system.

During the transition period, persons born in an even numbered year will receive a two-year license and those born in an odd numbered year will receive a one-year license.

For example, a person born in December 1933 will get a one-year license that will expire the last day of December in 1968 at which time he will renew the license for two years, carrying to the last day of December in 1970.

A person born in December 1934 will get a two-year license that will expire the last day of December in 1969, at which time he would renew it for a two-year period ending the last day of December in 1971.

Once the system is established, the Revenue Department will mail a renewal license to an individual 45 days in advance of the person's birthday.

The two-year transition period required to complete the change will likely cause some problems, but once the system is established, obtaining a renewed license will be quite easy.

"We expect to have a high rate of errors on this original mail issue," says H. W. Reinhardt, a retired Air Force lieutenant colonel who is serving as the project manager for the department.

The department will mail out new licenses Nov. 29 to all licensed drivers in 1967, using data obtained from persons when they bought their current license.

Reinhardt said this is why errors are expected, since many motorists may have moved since purchasing the license, leaving the department with a wrong address.

A driver receiving the invalidated license in the mail will have it validated by going by the local revenue office. At that time, any error on the license will be corrected and adjustments made in the computer to provide the Revenue Department with needed data to assure a smooth operation in future years.

The licenses also will no longer be issued on a calendar year basis, but will expire the last day of the month in which the driver was born, thus creating a staggered issue system.

During the transition period, persons born in an even numbered year will receive a two-year license and those born in an odd numbered year will receive a one-year license.

For example, a person born in December 1933 will get a one-year license that will expire the last day of December in 1968 at which time he will renew the license for two years, carrying to the last day of December in 1970.

A person born in December 1934 will get a two-year license that will expire the last day of December in 1969, at which time he would renew it for a two-year period ending the last day of December in 1971.

Once the system is established, the Revenue Department will mail a renewal license to an individual 45 days in advance of the person's birthday.

# Part II Presidential Itch Has Harold Stassen

WASHINGTON (AP)—If any one has an incurable presidential itch, it's Harold Stassen. He's been scratching for years, and he is not through yet although most people thought he was years ago.

Hope for Stassen is like a rubber band. He's been stretching it all his life.

From the exercise he got, you'd think he'd be in wonderful political condition. He's been running for something since he was 22. For a while he was so successful, back in the 1930s, he was called the "Boy Wonder" of American politics.

He's not a boy anymore. He's 60. But he never hung up his sweatshirt. He tried for the Republican presidential nomination in 1948, again in 1952 and again in 1964. He never had a chance any of those times.

Meanwhile, maybe just to keep in shape for the big event later or because he was just anxious for something, he tried in 1958 for the governorship of Pennsylvania and in 1959 for the mayor's job in Philadelphia. He was drenched both times.

Tuesday he announced he would make another stab at the presidency in 1968.

Few men have outmatched his eagerness. William Jennings Bryan was a little more successful, at least in trying. He won the Democratic presidential nomination three times—1896, 1900 and 1908—only to lose in the elections.

But those two would-be presidents, Stassen and Bryan, not only couldn't hold a candle to Norman Thomas, they couldn't hold a match to him although Thomas, who got the Socialist party's presidential nomination six times, was different from Stassen and Bryan.

He almost certainly knew from the beginning that in all the times he ran a Socialist had no chance. He must have been running for the principle of the thing.

About the time Stassen was announcing, Thomas, at 83, was hospitalized Tuesday with a slight stroke. Two weeks ago he said he was withdrawing from public light but was skeptical he had made his last speech.

As if to prove it, he made a speech Saturday and was stricken shortly afterward.

But all this doesn't answer the question: What makes Harold run? Maybe he doesn't know himself. He has an explanation, though. He said Tuesday he wants to give voters a wider choice.

He said he will be a "peace" candidate, referring to the war in Vietnam. When he announced his candidacy in 1963 he said, "I should like to see the Republican party take the lead in trying to modernize the United Nations."

In this year's August edition of Esquire magazine, when he said, "I don't rule out the 1968 nomination" for himself, he gave this view:

"I want a progressive Republican party. I want a strong United Nations. I want peace in Vietnam."

But he doesn't always stick to the same line. Early in 1952 he said he was the most likely compromise candidate if a deadlock for the nomination developed between Gen. Dwight D. Eisenhower and Sen. Robert A. Taft. In May 1952, he was saying Gov. Earl Warren of California was a likely compromise candidate.

But his worst political boo-boo came in 1956 when he was in the Eisenhower administration and suddenly told a news conference, in an effort to block the renomination that year of Vice President Richard M. Nixon, that his own private polls showed Nixon would be a handicap to the re-election of President Eisenhower.

He suggested Christian A. Herter, governor of Massachusetts, as Eisenhower's running mate. Herter called Stassen's performance comic opera. Herter nominated Nixon, Stassen, after a brief talk with Eisenhower, seconded it.

The road was all down hill after that. Yet, at 22 he was elected a county attorney in Minnesota and at 31 was elected governor. He was twice re-elected.

JEFFERSON CITY, Mo. (AP)—M. D. Anglin of Berryville, Ark., a retired naval officer and president of the National Association for the Protection of Purple Martins and Bluebirds, testified Wednesday in a trial in which five men were fined \$50 each after admitting that they had killed nearly 2,000 purple martins that were roosting in trees around the Missouri governor's mansion.

## Crimefighting Groups Are Not Unified

By STEPHEN M. AUG Associated Press Writer  
WASHINGTON (AP)—The FBI and its parent agency, the Justice Department, are at odds over the department's new "strike force" concept for fighting organized crime.

As a result, the FBI has refused to join fully the new anti-crime force—practically the only civilian federal investigative agency to decline full participation.

Atty. Gen. Ramsey Clark made public the new concept earlier this week in a New York speech when he announced the department will set up several "strike forces" to probe organized crime in selected areas.

The decision was based on a highly successful operation during the past year in Buffalo, N.Y., which resulted in 14 indictments affecting 31 defendants.

Under the strike force concept, seven federal investigative agencies work together on an intensive drive against organized crime in a selected area for a year or two.

Although Justice Department officials refused to discuss the disagreement, it is known they feel their job would be much easier if the FBI participated fully in the new technique.

FBI participation so far has been passive. It has not assigned agents to work on the strike forces but has made available its vast intelligence sources.

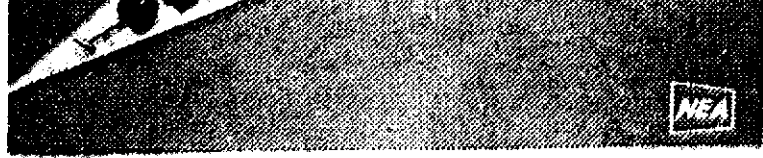

Technically, at least, the attorney general could order FBI Director J. Edgar Hoover to assign agents to the strike force, but Clark is said to be reluctant to do so. Although the FBI is part of the Justice Department it operates practically as an autonomous agency.

Insiders familiar with FBI operations say the bureau's opposition to participating fully in the plan is based on three premisses:

—The FBI traditionally likes to work alone and take the credit—or the blame—alone.

—The FBI over the years has sought to keep separate the investigating and prosecuting functions of the Justice Department. The bureau does the investigating; the department does the prosecuting.

—The bureau is not convinced that the intensive work of the strike forces—spread possibly over an 18-month or two-year period—would be lasting. It feels that once a drive is completed the target area may slip back under control of the local crime syndicate branch.

## RFK Hints He May Support McCarthy

WASHINGTON (AP)—Sen. Robert F. Kennedy's hint that he might alter his announced support of President Johnson in 1968 adds new drama to the potential opposition candidacy of Minnesota Democratic Sen. Eugene J. McCarthy.

Kennedy said Wednesday that McCarthy is likely to generate some important backing if he enters presidential primaries as an outspoken opponent to Johnson's Vietnam war policies.

Asked how a McCarthy candidacy would affect his previously announced decision to support President Johnson's expected bid for re-election despite his criticism of some of the President's Vietnam policies, the New York senator said:

"I perhaps will have something to say further if Sen. McCarthy announces."

Kennedy also said if he were Johnson he'd consider McCarthy's possible candidacy "very serious," and added: "I think he'll (McCarthy) receive some support around the country. I think from the people I've talked to, in California, New England, the Midwest, he'll have some support."

Kennedy was interviewed on the CBS Evening News.

McCarthy has said he was considering getting in to the race for the Democratic nomination because he felt Kennedy's announced intention of supporting Johnson left a vacuum in which voters had no direct way of expressing their opposition to Vietnam policies.

McCarthy wasn't immediately available for comment on Kennedy's statements. But in an earlier interview Wednesday the Minnesotan said any bid he makes for the Democratic nomination would aim at giving voters a chance to exert the kind of pressure he thinks might cause Johnson to change his course in Vietnam.

"Vietnam is an important issue and it can't be pushed aside," he said. "It is the kind of issue that should be presented squarely to the people under the established procedures of American politics."

"It has got to be presented with personal identification. It can't be dealt with as an abstract issue. If it is identified with a personality in the primaries the people can make their judgment."

McCarthy said personal political ambitions don't enter into the matter. Some Democratic colleagues suspect he is counting on antiwar sentiment to produce a respectable showing for him which—likened with national publicity—would make him a factor in the fight for the 1972 Democratic presidential nomination.

McCarthy said he hasn't even thought about 1972.

The Minnesota senator dismissed as furthest from his mind reports that he hopes by his venture to offer a future party leadership challenge to Kennedy.

But he does not deny the obvious—that Kennedy's resistance to being shoved into opposing Johnson next year contributed to his own nearing decision to take the plunge himself.

Fulbright Sees Risk If War Escalated

LITTLE ROCK (AP) — Unless the United States chooses to annihilate Hanoi and Hanoi, the only way to escalate the Vietnam war would be to invade North Vietnam and risk a confrontation with Red China, Sen. J. William Fulbright, D-Ark., said Wednesday.

"I would think it a great probability, although I have no crystal ball, that the Chinese would come in... if we occupied North Vietnam," he said. "Nobody really knows, but the risk is great."

On the other hand, there would be no threat to U.S. security if it withdrew from Vietnam, Fulbright told the Arkansas State Chamber of Commerce and Associated Industries of Arkansas.

"The theory that if the United States falls, we'll be fighting in San Francisco is utterly ridiculous to me," Fulbright said.

The senator said the United States never should have become involved in the Vietnam conflict, and that even the Hawks in Congress agreed with him privately.

"Some of the strongest state rights people in the Senate fuss about big government... but they seem to be quite willing to meddle in everybody's business abroad," he said. "I think this is an illustration of the confusion that has arisen out of this adventure in Vietnam."

The senator said he wasn't surprised at Communist rejection of President Johnson's recent offer to negotiate for peace aboard a neutral ship in a

neutral sea.

Regardless of where negotiations are held, they would be insignificant if "the enemy and the rest of the world believes we do not intend to withdraw from Vietnam," Fulbright said.

Denies Petition to Reduce Bond

LITTLE ROCK (AP) — The Arkansas Supreme Court has denied a petition to reduce the \$25,000 bond set for Bill Gross, 30, who is being held in the Conway County Jail at Morrilton on a first degree murder charge.

Circuit Judge Russell C. Roberts of Conway set the bond for Gross, who is accused of the fatal beating of Frank A. Birch, 69, of Hattiesville, in 1963.

Gross' attorneys contended the bond was excessive and should be reduced to \$10,000.

FAA Wants to Talk to Pilot

TEXARKANA, Ark. (AP) — The Federal Aeronautics Agency wants to talk to the pilot of a single-engine Bonanza aircraft that apparently belongs to the Mitchell Land and Cattle Co., at Kanay, Tex.

FAA officials say the pilot hasn't been seen since he landed at the airport here Wednesday night and asked an airport attendant to refuel his plane.

The officials say damage to a wing and the propeller lead them to believe its the same aircraft that knocked a seven-foot section from a 70-foot electrical transmission tower seven miles south of here earlier in the evening, blacking out the communities of Nash and Wake Village for 35 minutes.

121,000 Did Not File State Form

LITTLE ROCK (AP) — J. Orville Cheney and Mrs. Doris Hinkle, the two predecessors to state Revenue Commissioner B. Bryan Larey, said Wednesday they thought the new state withholding system was partly the blame for 121,000 persons failing to file a state income tax in 1966.

The Income Tax Division of the department disclosed Wednesday that 121,000 persons failed to file an income tax and that this would amount to at least \$1 million in revenue.

The discovery was made when federal personal income tax computer tapes were compared with state returns filed for 1966. The comparison also disclosed that 258,000 persons did not file a return for 1965, which amounted to about \$3 million.

Cheney and Mrs. Hinkle said they thought many people were unaware that filing a return was necessary under the withholding system.

The reason they're finding all these people now is the fact that they have computers and that the new withholding procedure has confused a lot of people, Cheney said.

"A lot of those people don't actually owe any money," Mrs. Hinkle said. "They just didn't think they had to file a return."

Mrs. Hinkle said the computers had been installed in the state Revenue Department while she was in office, but that the comparison of state and federal returns had not been complete when she left office last February.

# X15 Rocket Plane Crash Is Mystery

EDWARDS AIR FORCE BASE, Calif. (AP) — "I'm in a spin," said the words of the calm pilot of an X15 rocket plane that plunged into the desert from an altitude of more than 60 miles Wednesday left investigators with a mystery.

Air Force Maj. Michael J. Adams went down in his death with the plane. Adams reported control troubles, but officials said that alone wasn't enough to cause the crash.

A National Aeronautics and Space Administration spokesman said Adams may have delayed pulling his ejection mechanism in a last-ditch effort to gain control. That delay may have cost him his life.

Adams may have tried to get from the craft and been unable to, but the spokesman said there is no indication this happened.

"There was apparently some kind of control malfunction as the pilot attempted to pull out of his descent," a NASA spokesman said.

"Pull it up... get some G on it," ground controllers told Adams seconds before he crashed. "Mike, do you read?" "Pull it up!"

Adams had reported control problems with the plane's damper devices to reduce oscillation as the craft is controlled, then radar trackers showed he had regained control—but only for a very few seconds.

The NASA spokesman said there could be "any number of reasons" why Adams failed to eject after he lost control of the X15 the second time. "He could have blacked out... maybe the powerful force, several times that of gravity, caused by change in speed or direction, got to him."

The problem with the damper could have occurred, he

said, "but that alone wouldn't have been enough to cause the crash. There had to be something else, perhaps a major malfunction, perhaps not."

After flights investigating maneuverability in space X15s descend from high altitude on a glide path about 30 degrees below horizontal. The stubby ships come down pancake style as they enter denser atmosphere, where the pilot switches from automatic to manual control.

Adams' ship, one of three, crashed in the Mojave Desert north of Edwards AFB near the mining town of Johannesburg.

Adams, who lived at the base with his wife and three children, was on his 11th flight. The craft was dropped from the belly of a B52 at 10:30 a.m. and shot to about 265,000 feet on a routine research flight.

The X15 burns its 10 tons of fuel in about 85 seconds as it accelerates. Then the ship noses over and begins the long dive to earth.

As it enters denser atmosphere the pilot begins to pull the craft out of its dive and begins a glide to a landing. This is where Adams ran into trouble.

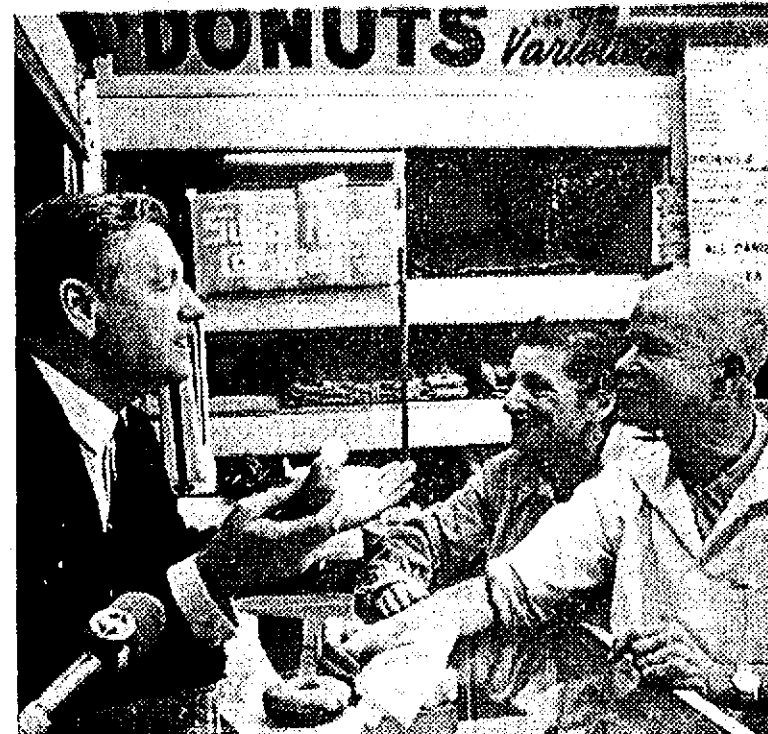

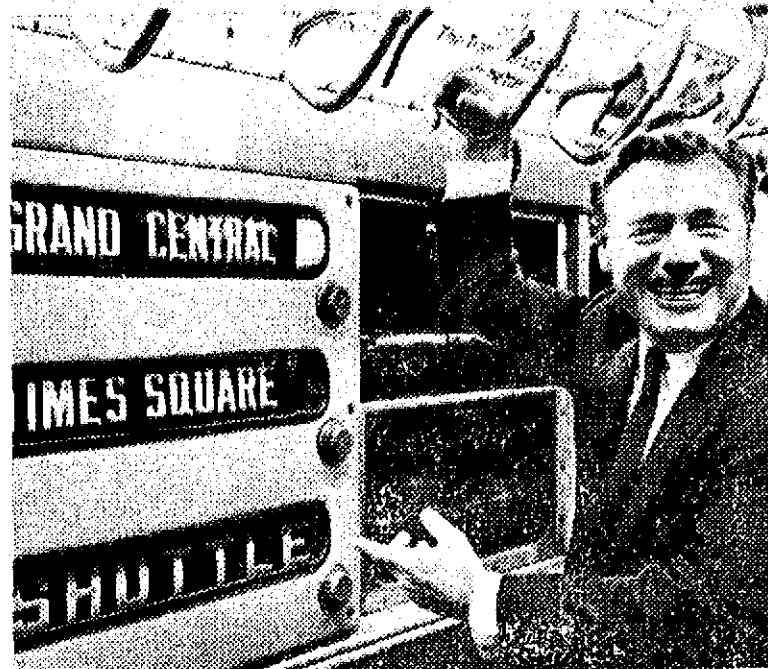

## Anniversary Committee

LITTLE ROCK (AP) — The Arkansas Sesquicentennial Committee appointed by Gov. Winthrop Rockefeller to plan an observance of the 150th anniversary of Arkansas' creation as a territory assembled here Tuesday for an organizational meeting.

The committee elected Dr. Boyce Drummond of Arkadelphia as its president, Cleon Collier of Gillett as vice chairman and Dr. John Ferguson of Little Rock as secretary-treasurer.

Drummond is a professor of history at Henderson State College, and Ferguson is executive secretary of the state History Commission.

Arkansas became a territory on March 2, 1819. It's 150th anniversary is in 1969.

## Sternwheeler Returning to Newport

By Lady Elizabeth Luker  
Newport Independent

NEWPORT, Ark. (AP)— The deep-throated whistle of an old sternwheeler will soon be heard again at the historic steamboat

landing at Jacksonport. The Mary Woods is making her final voyage up the White River from Clarendon to a permanent berth at the Jacksonport State Park. She is expected to reach Jacksonport late today, completing a three-day journey.

The Mary Woods is the last triple-decked steamboat on the White River and one of the very few remaining on the entire Mississippi River system. The Potlatch Lumber Co. has replaced the steam boilers with two modern diesel engines, but the boat is still driven by the big paddle wheel in the stern. It has a steel hull and is in good running order.

Having a genuine steamboat at anchor at the Jacksonport landing to complement the old Jacksonport Courthouse has been in the over-all plan of the Jackson County Historical Society since the courthouse restoration was begun. It was a big dream and has taken five years to come true.

Many inquiries were made in Memphis and even New Orleans to locate a steamboat which might be bought for this purpose. One morning three years ago, Capt. Charles Warner and John Morrow Jr. of Batesville called at the home of Mrs. Lady Elizabeth Luker, then president of the Historical Society. Capt. Warner is a returned steamboat pilot and had compiled a history of steamboats on the White River for the society.

He had also helped in the search for a boat. They were breathless with the news of a rumor that the Potlatch Lumber Co. intended to replace the sternwheeler Mary Woods and it might be offered for sale.

Mrs. Luker discussed the idea with Bryan Sterns, associate director of the Parks and Publicity Commission. He was in-

## Not a Candidate

he says, but New York Gov. Nelson Rockefeller's meat-the-people tours look a lot like campaigning. The more he denies interest in the Republican presidential nomination, the higher his stock as a hot prospect seems to rise on the national scene. Meanwhile, back in New York, the genial governor whistles on the New York City subway, left, always a sure-fire politicking tactic; eats a donut and chats with snack stand operators Doris and Murray Rosenfeld, below left, and has a good word and glad hand for a passerby, below right.

## 2 Escape From LR Air Base

JACKSONVILLE, Ark. (AP) — Two Army privates allegedly AWOL from their bases in Missouri and Louisiana escaped from Little Rock Air Force Base here Wednesday while en route to breakfast.

The men were identified as Pfc. Reece Berry, 20, of Van Buren, who was assigned to Fort Leonard Wood, Mo., and Pvt. Ed Willis L. Hurley, 24, of Fairborne, Ohio, who was assigned to Fort Polk, La.

A spokesman at the air base said the men were being taken by truck from the base confinement to a mess hall when they jumped from the truck and fled.

## Democratic Youths to Have Fight

Gov. Nelson A. Rockefeller has been prodded to seek the Republican presidential nomination. The youth arm of the Democratic party meanwhile seems headed for a rousing battle over the peace-in-Vietnam issue.

The New York governor's candidacy "would be a good thing for my party and the country," declared Mayor John V. Lindsay of New York City.

Rockefeller's name was also on the mind of former Vice President Richard M. Nixon, who listed the New Yorker—and himself—with three others as potential candidates for the GOP nomination.

The political name-dropping occurred as a nationwide poll said that for the first time since November 1957 Republicans lead Democrats as the party most citizens believe can best handle the nation's prime problems.

## Gala Cranberry Mincemeat Pudding

By GAYNOR MADDOX  
NEA Food Editor

Time now to begin to plan the family Christmas dinner. Instead of the traditional plum pudding of old England, why not a mincemeat pudding with cranberries?

It makes a handsome and festive dessert and is steam-baked in the oven with the greatest of ease.

OVEN-STEAMED CRANBERRY MINCEMEAT PUDDING (Makes 8 servings)

2 cups boiling water  
2 cups fresh cranberries, rinsed, drained and halved  
1 package (9 ounces) concentrated mincemeat, crumbled  
1 cup butter or margarine  
1 cup firmly packed brown sugar  
1 cup molasses  
3 1/2 cups sifted regular all-purpose flour  
1/2 teaspoon salt  
2 teaspoons baking soda

Combine water, cranberries and mincemeat; let stand 10 minutes. Cream butter; then stir in sugar and molasses. Stir dry ingredients and stir into butter mixture, beginning and ending with dry ingredi-

Tangy cranberry mincemeat pudding.

ents. Pour mixture into a greased 2 1/2-quart pudding mold. Cover with greased lid or foil. Bake at 350 degrees for about 1 1/2 hours or until pudding tests done. (Cake tester inserted in center will come out clean.) Cool in mold about 15 minutes; then tap to loosen and unmold on a serving platter. Serve warm with hard sauce, garnished with spiced or candied cranberries and holly leaves if desired.

SPICED CRANBERRIES (Makes about 3 cups)  
1/2 cup cider vinegar  
1/2 cup water

3 cups granulated sugar  
2 sticks cinnamon  
12 whole cloves  
1 pound (4 cups) fresh cranberries

Combine vinegar, water, sugar and spices in a saucepan. Bring mixture to a boil, reduce heat and simmer for 5 minutes. Add cranberries and cook over high heat for 2 or 3 minutes, stirring gently. Do not overcook or cranberries will lose their shape. Pour mixture into sterilized jars. Seal and store for at least 1 week before serving.
